Every year, 1st Remodeling strives to successfully perform a broad variety of home renovation projects from small to complex.

Contact us to schedule a FREE on-site consultation and we will give you a prompt estimate for your project.

Initial Walk Through

The first step in the process usually begins with performing a job-site-walk-through with both the client and the Project Supervisor.

Measuring & Planning

Our Project Supervisor will measure and plan the best action steps needed to produce the end results of the remodeling need.

Good Faith Estimate

Once the evaluation is complete, a "good faith estimate" is processed for the clients consideration. With or without materials and labor cost.

Production Stage

Once the agreement is confirmed by client to move forward on the project materials and the necessary processes completed, we can begin the home improvement/ remodeling.

Quality Assurance

When the majority of the construction is done, the Project Supervisor will walk through with you and create a "touch-up" list that documents any items that are incomplete or unsatisfactory. Once this list is compiled, the touch-up crew will go through and take care of every item on the list to your satisfaction.
